

# BESTEEL PROJECT TIMELINE

To ensure an efficient workflow and guarantee the highest quality beSteel implemented the following steps.

## 01. PROJECT ORDER

- QUOTE APPROVAL AND DIGITAL SIGNATURE BY CUSTOMER
- DEPOSIT PAYMENT BY THE CUSTOMER

### **KICKOFF MEETING**

Organized with the respective Project Managers on customer side and at beSteel.

## 02. PRODUCTION OF SOLIDS BY BESTEEL

Solid drawings function as definitive measurements for a beSteel project. One round of feedback is foreseen to make corrections and validate the steelframe drawings.

### INFORMATION NEEDED FROM CUSTOMER

Following information from the customer is needed to start the production of solids.

- Definitive version of the architectural plans IFC and/or Autocad
- Dimensions of general structure
- Needed openings for windows and doors
- Detailed project compositions (walls, floors, ceiling etc.)
- Mention of needed holes needed for HVAC.
- Mention of specific charges on the project (boiler, photovoltaic panels, boilers, green roof, terrace roof etc.)

- Signed validation of the solids is required in order to start the next phase of the project.

### **DELIVERY DATE**

Delivery date is shared once the project setup-steps above are fulfilled.

## 03. ENGINEERING, FRAMING AND HRS PLANS BY BESTEEL

Engineering report, HRS production plans, and Anchor plan are digitally delivered.

- Optional feature: get the HRS produced by beSteel. Request to be done by customer.

## 04. OFFSITE PRODUCTION BY BESTEEL

Production is started at beSteel and transport date and hours are communicated.

- Remaining saldo payment by the customer will be required.

## 05. PROJECT CLOSURE, TRANSPORT AND DIGITAL FIELD INSTRUCTION

Final payment by the customer is confirmed. Digital field instructions are shared with customer and the project Ex-Works Aarschot is ready to leave beSteel. After transport, the assembly on site can start by the contractor.

- Optional feature: Theoretical training in beSteel factory or practical on-site training can be ordered.
- Optional feature: Project delivery can be organised by beSteel, to be booked with our logistic director.
